PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code §413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Use of the Fee Guidelines*, effective May 16, 2002 set out the reimbursement guidelines.

1. For the services involved in this dispute, the respondent reduced or denied payment with reason codes:

- M-The allowances in this review are based on the QMedtrix determination of reasonable and customary charges for the region in which svcs were rendered.
- M-Reduced to fair and reasonable.

2. This dispute relates to outpatient emergency services including laboratory and radiological studies performed in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401(a)(3) and §134.401(a)(5), effective August 1, 1997, 22 TexReg 6264, which provide that such services shall be reimbursed at a fair and reasonable rate until the issuance of a fee guideline addressing these specific services.”
3. Division rule at 28 TAC §134.1, effective May 16, 2002, 27 TexReg 4047, requires that “reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers’ Compensation Act, §413.011”...
4. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual’s behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. Division rule at 28 TAC §133.307(e)(2)(B), effective January 1, 2003, 27 TexReg 12282; and applicable to disputes filed on or after January 1, 2003 requires that the request shall include “a copy of each explanation of benefits (EOB) or response to the refund request relevant to the dispute or, if no EOB was received, convincing evidence of carrier receipt of the provider request for an EOB.” This request for medical fee dispute resolution was received by the Division on March 28, 2005. Review of the documentation submitted by the requestor finds that the requestor has not provided a copy of the EOB detailing the insurance carrier’s response to the request for reconsideration. Nor has the requestor provided evidence of carrier receipt of the request for an EOB. The requestor has therefore failed to complete the required sections of the request in the form and manner prescribed by the Division sufficient to meet the requirements of 28 TAC §133.307(e)(2)(B).
6. Division rule at 28 TAC §133.307(g)(3)(A), effective January 1, 2003, 27 TexReg 12282; and applicable to disputes filed on or after January 1, 2003 requires the requestor to send additional documentation relevant to the fee dispute including “documentation of the request for and response to reconsideration (when a provider is requesting dispute resolution on a carrier reduction or denial of a medical bill) or, if the carrier failed to respond to the request for reconsideration, convincing evidence of the carrier’s receipt of that request” Pursuant to §133.307(g)(3), the Division notified the requestor on April 5, 2005 to send the additional required documentation. Review of the submitted evidence finds that the requestor has not provided documentation of the insurance carrier’s response to the request for reconsideration or convincing evidence of the carrier’s receipt of that request. The Division concludes that the requestor has not provided documentation sufficient to meet the requirements of Division rule at 28 TAC §133.307(g)(3)(A).
7. Division rule at 28 TAC §133.307(g)(3)(C), effective January 1, 2003, 27 TexReg 12282; and applicable to disputes filed on or after January 1, 2003 requires the requestor to send additional documentation relevant to the fee dispute including “a statement of the disputed issue(s) that shall include: (i) a description of the healthcare for which payment is in dispute, (ii) the requestor’s reasoning for why the disputed fees should be paid or refunded, (iii) how the Texas Labor Code and commission [now the Division] rules, and fee guidelines, impact the disputed fee issues, and (iv) how the submitted documentation supports the requestor position for each disputed fee issue. Review of the submitted documentation finds that the requestor did not discuss or explain how the Texas Labor Code and Division rules impact the disputed fee issues, or how the submitted documentation supports the requestor’s position for each disputed fee issue. The Division concludes that requestor has not provided documentation sufficient to meet the requirements of Division rule at 28 TAC §133.307(g)(3)(C).
8. Division Rule at 28 TAC §133.307(g)(3)(D), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to provide “documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement in accordance with §133.1 of this title (relating to Definitions) and §134.1 of this title (relating to Use of the Fee Guidelines)”. The requestor asks in the DWC-60 *Table of Disputed Services* for increased reimbursement that “...pay the fee sch per the codes that have them and remaing to pay fair and reasonable @ 75%.”[sic] Division rule at 28 TAC §134.401(a)(5), states that emergency room services that do not lead to an inpatient admission will be reimbursed at fair and reasonable. The requestor did not identify which fee schedule and for what codes reimbursement was being sought. Also, the requestor did not discuss or explain how it determined that the amount sought is fair and reasonable reimbursement. Nor did the requestor submit evidence, such as redacted EOBs showing typical carrier payments, nationally recognized published studies, Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments, to support the proposed methodology. Nor has the requestor discussed how the proposed methodology would be consistent with the criteria of Labor Code §413.011, or would ensure similar reimbursement to similar procedures provided in similar circumstances. Review of the documentation submitted by the requestor finds that the requestor has not discussed, demonstrated or justified that the payment amount sought is a fair and reasonable rate of reimbursement in accordance with 28 TAC §134.1. Additionally, the requestor is seeking that “...remaing to pay fair and reasonable @ 75%.” [sic] The Division has determined that a reimbursement methodology based upon a percentage of billed charges does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 Texas Register 6276 (July 4, 1997) that:

“A discount from billed charges was another method of reimbursement which was considered. Again this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources.”

Thorough review of the documentation submitted by the requestor finds that the requestor has not discussed, demonstrated or justified that payment in the amount sought by the requestor would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

9. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(e)(2)(A), §133.307(g)(3)(A), §133.307(g)(3)(B), §133.307(g)(3)(C) and §133.307(g)(3)(D). Therefore, the requestor failed to meet its burden of proof to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

PART VI: GENERAL PAYMENT POLICIES/REFERENCES

Texas Labor Code § 413.011(a-d), § 413.031 and § 413.0311,
